### Important Information for Authors

#### Abstract Submission

All abstracts must be submitted by email using template abstract and Registration form. Abstract submission will be opens until October 30th, 2021. Please note that all submitted abstracts will be reviewed by the Scientific Committee.

Authors will be notified by the Organizers of the conference if their abstracts have been accepted for a poster or an oral presentation.

#### Oral Presentation

Authors should indicate their preference for this type of presentation. Organizing Committee would try to meet this preference.

If you wish a Virtual Oral Presentation, you should send us your video presentation or your animated Power Point Presentation (including audio).

#### Poster presentation

A poster presentation allows you to interact face to face with people interested in your research. Each poster session lasts 30 minutes. Posters should be no larger than A0 (84 cm wide by 119 cm long) in this format. Please follow the guidelines. If you prefer Virtual Poster Presentation, you should send us your poster file in format A1 (59 x 84 cm). We print your poster and take care of everything.

#### Extended Abstract Submission

Submission of extended abstracts is OPTIONAL. If you want to publish your paper in any partners Journal (with a peer review), you should not send this extended abstract. You should send the paper to the partners journal after the Conference.

#### Reviewing Strategies

After you fill the required fields and submit your abstract, it will then be allocated to the Scientific Committee members and Advisory and review committee immediately via the platform. You should then receive the notification of acceptance/rejection once it is reviewed, the delay depends on the reviewers' availability. We highly advise submitting as soon as possible in order to get a chance to be reviewed on time.
